4300 Cherry Creek Drive South
Denver, Colorado 80222-1530

Ms. Susan Chalki, Unit Leader Hazardous Waste Cleanups Colorado Department of Public Health and the Environment 4300 Cherry Creek Drive South Denver, Colorado 80222-1530

Dear Mr. Rehder, Mr. Schieffelin, and Ms. Chaki:

As part of the Comprehensive Environmental Response and Compensation Liability Act (CERCLA) Tanks Closure Project, the Department of Energy (DOE) is notifying you that we plan to conduct the following activities:

Remove the remaining contents of Tank 4, (Individual Hazardous Substance Site 129). Rinse the tank and process the media through an oil/water separator. Treat the rinsate water at the Sitewide Treatment Facility. Close out the tank and fill it with foam to prevent further infiltration and future use.

Cleaning and rinsing of the tank will be completed in accordance with the previously submitted and approved Accelerated Action Plan for Six Underground Storage Tanks. This part of the project is being completed as a maintenance activity. This notification adds a seventh tank to the project. Foaming and closure of Tank 4 is already included in the approved Final Proposed Action Memorandum (PAM) for the Contaminant Stabilization of Underground Storage Tanks.

If you have any questions regarding this project, please contact Dave George, the DOE Environmental Restoration Progress Assessment Team Leader at 966-5669.

Sincerely,

James K. Hartman, Acting Assistant Manager

for Environmental Compliance
